Finally a bleach-free product that cleans, disinfects, deodorizes and sanitizes without any offensive odor!

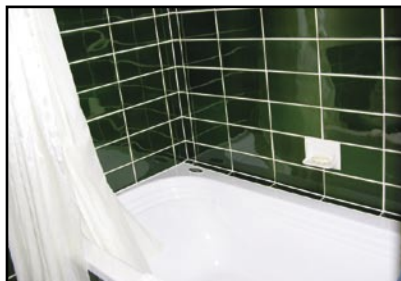

INTRODUCING

Chomp Pro Mildew Cleaner

CLEANS AND INHIBITS MILDEW GROWTH

Cleans and disinfects

Pleasant scent won't chase you out of the room

Deodorizes and sanitizes

Cleans mildew without damage

Bleach Free Benefits:

- **Deep Penetrating - cleans deeper, faster - with less effort**
- **Safer for all surfaces • Safer to handle and use / non-reactive**

Chomp Pro Mildew Cleaner

CLEANS AND INHIBITS MILDEW GROWTH

Benefits For You!

- Spray and Wipe – Cleans mold & mildew more thoroughly, with less effort than bleach-based cleaners.
- Less Corrosive – Cleans metals like stainless steel and aluminum without damage.
- Pleasant to work with – No coughing and gagging.

Bleach Free Cleaning Technology

What Does it Mean For You?

Bleach is inexpensive, toxic, corrosive and discolors. Bleach also has a high surface tension – it will not penetrate and deep clean without great, physical effort. Chomp Pro Mildew Cleaner provides rapid action, is colorless, less corrosive and highly stable. Chomp Pro Mildew Cleaner has low surface tension and is formulated with surfactants to provide fast penetrating, effective cleaning and disinfecting in one easy step.
